

ANTES

Carro.java

```
String marca;  
String modelo;  
int ano;  
double preco;
```

App.java

```
...main(...){  
    Carro c1;  
    ...  
    c1.marca = "..."  
}
```

Usando PRIVATE

Carro.java

```
private String marca;  
private String modelo;  
private int ano;  
private double preco;
```

App.java

```
...main(...){  
    Carro c1;  
    ...  
    c1.marca = "..."  
}
```
